

CV Date	02/12/2025
---------	------------

Part A. PERSONAL INFORMATION

First Name	Fco. Javier		
Family Name	Heredia Cervera		
Sex	Male	Date of Birth	02/03/1965
ID number Social Security, Passport	46533591Z		
URL Web	http://www-eio.upc.es/~heredia/		
Email Address	f.javier.heredia@upc.edu		
Open Researcher and Contributor ID (ORCID)	0000-0003-4613-957X		

A.1. Current position

Job Title	Associate professor		
Starting date	1998		
Institution	Universitat Politècnica de Catalunya		
Department / Centre	Department of Statistics and Operations Research		
Country		Phone Number	
Keywords	Management of electric markets; Linear programming; Non linear programming; Computation and discrete mathematics		

A.2. Previous positions (Research Career breaks included)

Period	Job Title / Name of Employer / Country
1993 - 1998	University school associate professor / Universitat Politècnica de Catalunya
1991 - 1993	University school associate professor / Universitat Politècnica de Catalunya
1989 - 1991	Adjunct lecturer / Universitat Politècnica de Catalunya
1989 - 1989	Assistant / Universitat Politècnica de Catalunya

A.3. Education

Degree/Master/PhD	University / Country	Year
Informàtica	Universitat Politècnica de Catalunya / Spain	1995
Licenciado en Ciencias Físicas	Universitat de Barcelona	1988

Part B. CV SUMMARY

I hold a BSc. degree in Physics from the University of Barcelona (1988) and a PhD. in Operations Research from the Universitat Politècnica de Catalunya (UPC) (1995). Currently I am associate professor (Professor Titular d'Universitat) at the Department of Statistics and Operational Research of the UPC. My teaching activity is developed mainly in the Faculty of Mathematics and Statistic (FME) and the Faculty of Informatics of Barcelona (FIB), lecturing courses on mathematical optimization and stochastic optimization in energy markets in the degree of mathematics, degree of statistics and degree of data science and in the masters of statistics and operations research, master of data science and master of energy engineering. I have also contributed to the academic organization of my university holding several institutional position as vice dean for International relations and vice dean coordinator of the degree of Statistics at the Faculty of Mathematics and Statistics. I have also been intensively involved in the design of the BSc degree of Statistics of the UPC and its adaptation to the European Space of Higher Education, coordinating the pilot test project at the UPC.

I am the current coordinator of the Group on Numerical Optimization and Modeling (GNOM) of the UPC (6 full time researchers), recognized as a consolidated research group by the Agency for Management of University and Research Grants of the Government of Catalonia.

My research interests are focused on multistage stochastic programming models, its properties and applications (energy markets, supply chain, logistics, real state). This research activity deserved four recognized six-years periods of investigation (“sexenios”), the last comprising the period 2012-2017.

My research production includes 32 publications, including journal papers, chapters of book and indexed proceedings papers. The majority of these publications are papers in some of the most relevant journals in operations research, mathematical optimization and its applications (SIAM Journal on Optimization, Annals of Operations Research, Computers and Operations Research, International Journal of Production Research, IEEE Transactions on Power Systems, IEEE Transactions on Smart Grids,...). I have 68 contributions to congresses, almost all international and invited.

I participated in a total of 21 funded research projects: 10 projects with national public funding (the last eight as IP), 3 European projects (1 as IP) and 7 contracts (3 as IP) with some of the major Spanish and worldwide companies in energy (Naturgy, FECSA-ENDESA), consulting (Accenture), manufacturing (Top Cable) and real state (CBRE).

I supervised 6 PhD thesis (1 more in progress), and 42 MSc/BSc thesis. My former PhD students have been occupying high level positions in the academy (Universidad Juan Carlos, Madrid) research institutions (Institute for Energy Research of Catalonia (IREC)) and several companies (Hoop Solutions S.L., Vueling Airlines, Decide solutions, CBRE).

Editor of the journal Statistics and Operations Research Transactions (SORT) (2003-2007). Referee of several journals on OR and applications: Operations Research, IEEE Transactions on Power Systems, IEEE Systems Journal, Annals of Operations Research, TOP, Statistics and Operations Research Transactions, European Journal of Operational Research, Statistical and Operations Research, Energy Economics, Science of the Total Environment, Computers and Operations Research, Applied Energy, Journal of Environmental Management, Journal of Energy Storage. I was reviewer of the following evaluation committees: Comisión de evaluación del Programa de Diseño y Producción Industrial (DPI), Subdirección General de Proyectos de Investigación. Ministerio de Ciencia e Innovación (since 2009); Agencia Nacional de Evaluación y Prospectiva (ANEP), Ministerio de Ciencia e Innovación (since 2008). Agència de Gestió d'Ajuts Universitaris i de Recerca de la Generalitat de Catalunya (AGAUR), Generalitat de Catalunya (since 2008).

Part C. RELEVANT ACCOMPLISHMENTS

C.1. Most important publications in national or international peer-reviewed journals, books and conferences

AC: corresponding author. (n° x / n° y): position / total authors. If applicable, indicate the number of citations

- 1 **Scientific paper.** Ramon-Lumbierres, Daniel.; (2/4) Heredia, F.-Javier; Minguella-Canela, J.; Muguruza, A.2020. Optimal postponement in supply chain network design under uncertainty: an application for additive manufacturing. International journal of production research. Taylor & Francis Group. ISSN 0020-7543. (25) <https://doi.org/10.1080/00207543.2020.1775908>
- 2 **Scientific paper.** Barbero, M.; Corchero, C.; Canals Casals, L.; Igalada, L.; (5/5) Heredia, F.-Javier. 2020. Critical evaluation of European balancing markets to enable the participation of Demand Aggregators. Applied energy. 264-114707, pp.1-23. ISSN 0306-2619. (51) <https://doi.org/10.1016/j.apenergy.2020.114707>
- 3 **Scientific paper.** (1/3) Heredia, F.-Javier; Cifuentes, J.; Corchero, C.2018. Stochastic optimal generation bid to electricity markets with emissions risk constraints. Journal of environmental management. 207-1, pp.432-443. ISSN 0301-4797. (10) <https://doi.org/10.1016/j.jenvman.2017.11.010>
- 4 **Scientific paper.** (1/3) Heredia, F.-Javier; Cuadrado, M.; Corchero, C.2018. On optimal participation in the electricity markets of wind power plants with battery energy storage systems. Computers & operations research. Elsevier. 96, pp.316-329. ISSN 0305-0548. (88) <https://doi.org/10.1016/j.cor.2018.03.004>

- 5 Scientific paper.** Igualada, L.; Corchero, C.; Cruz-Zambrano, M.; (4/4) Heredia, F.-Javier. 2014. Optimal energy management for a residential microgrid including a vehicle-to-grid system. IEEE transactions on smart grid. Institute of Electrical and Electronics Engineers (IEEE). 5-4, pp.2163-2172. ISSN 1949-3053. (230) <https://doi.org/10.1109/TSG.2014.2318836>

C.2. Conferences and meetings

- 1 Albert Solà Vilalta; Heredia, F.-Javier; Mañé, I.; Pachon, C.; Ademollo, A.. Optimal participation of energy communities in electricity markets under uncertainty: a multi-stage stochastic programming approach. 34th European Conference on Operational Research. 2025. United Kingdom. Participatory - invited / keynote talk.
- 2 Albert Solà Vilalta; Cuadrado, M.; Mañé, I.; Heredia, F.-Javier. Optimal participation of energy communities in electricity markets under uncertainty: a multi-stage stochastic programming approach. 25th International Symposium on Mathematical Programming. 2024. Canada. Participatory - invited / keynote talk.
- 3 Maureira, Grace; Heredia, F.-Javier. Enhancing shopping centre profitability through optimized tenant mix and synergistic placement. 33rd European Conference on Operational Research. 2024. Denmark. Participatory - oral communication.
- 4 Albert Solà Vilalta; Cuadrado, M.; Mañé, I.; Heredia, F.-Javier. Optimal participation of energy communities in electricity markets under uncertainty. A multi-stage stochastic programming approach. 33rd European Conference on Operational Research. 2024. Denmark. Participatory - invited / keynote talk.
- 5 Maureira, Grace; Heredia, F.-Javier. A model to optimize the tenant mix in a shopping centre. 23rd Conference of the International Federation of Operational Research Societies. 2023. Chile. Participatory - oral communication.
- 6 Heredia, F.-Javier; Mañé, I.; Cuadrado, M.. Multistage stochastic programming for the optimal bid of a wind-thermal power production pool with battery storage.. 32nd European Conference on Operational Research. 2022. Finland. Participatory - invited / keynote talk.
- 7 Cuadrado, M.; Heredia, F.-Javier. Multistage scenario trees generation for electricity markets optimization. 31st European Conference on Operational Research. 2021. Greece. Participatory - invited / keynote talk.
- 8 Ramon-Lumbierres, Daniel.; Heredia, F.-Javier. A multistage stochastic programming model for the strategic supply chain design. 29th European Conference on Operational Research. 2018. Participatory - oral communication.
- 9 Ramon-Lumbierres, Daniel.; Heredia, F.-Javier; Gimeno, R.; Buil, R.; Consola, J.. A multistage stochastic programming model for the strategic supply chain design. ISMP2018 - 23th International Symposium on Mathematical Programming. 2018. France. Participatory - oral communication.
- 10 Corchero, C.; Homs, Josep; Heredia, F.-Javier; Igualada, L.; de Prada, M.. A MIP formulation of a hybrid AC-DC offshore wind power plant topology. ISMP2018 - 23th International Symposium on Mathematical Programming. 2018. France. Participatory - oral communication.
- 11 Heredia, F.-Javier; Cuadrado, M.; Sanchez, J.. A multistage stochastic programming model for the optimal bid of a wind producer. ISMP2018 - 23th International Symposium on Mathematical Programming. 2018. France. Participatory - oral communication.
- 12 Minguella-Canela, J.; Muguruza, A.; Bonada, J.; et al; Webb, S.. Comparison of production strategies and degree of postponement when incorporating additive manufacturing to product supply chains. 7th Manufacturing Engineering Society International Conference. 2017. Participatory - oral communication.
- 13 Heredia, F.-Javier; Cuadrado, M.. A multistage stochastic programming model for the optimal management of wind-BESS virtual power plants. Windfarms2017. 2017. Spain. Participatory - invited / keynote talk.
- 14 Ramon-Lumbierres, Daniel.; Muguruza, A.; Minguella-Canela, J.; Heredia, F.-Javier. Optimal supply chain strategy and postponement degree with 3D printing. 28th European Conference on Operational Research. 2016. Poland. Participatory - oral communication.

- 15 Heredia, F.-Javier; Corchero, C.; Cuadrado, M.. On the optimal participation in electricity markets of wind power plants with battery energy storage systems. 28th European Conference on Operational Research. 2016. Poland. Participatory - oral communication.

C.3. Research projects and contracts

- 1 **Project.** PCI2024-155097-2, Renewable Energy INtegration for Flexibility, Optimal Management and Resilience in Energy Communities and the Built Environment. AGENCIA ESTATAL DE INVESTIGACION. Fco. Javier Heredia Cervera. (Department of Statistics and Operations Research). 01/11/2024-31/10/2027. 175.000 €.
- 2 **Project.** PID2022-139219OB-I00, Modelling and Optimization of StruCtured problems and Applications. AGENCIA ESTATAL DE INVESTIGACION. Fco. Javier Heredia Cervera. (Department of Statistics and Operations Research). 01/09/2023-31/08/2026. 106.250 €.
- 3 **Project.** TED2021-131365B-C44, Unified multi-market participation of energy communities in energy markets. AGENCIA ESTATAL DE INVESTIGACION. Fco. Javier Heredia Cervera. (Department of Statistics and Operations Research). 01/12/2022-31/07/2025. 149.500 €.
- 4 **Project.** 2021 SGR 00592, GROUP ON NUMERICAL OPTIMIZATION AND MODELING. AGAUR. Agència de Gestió d'Ajuts Universitaris i de Recerca. Fco. Javier Heredia Cervera. (Department of Statistics and Operations Research). 01/01/2022-30/06/2025.
- 5 **Project.** 2019 DI 098, Modelos de optimización matemática en la gestión de centros comerciales. AGAUR. Agència de Gestió d'Ajuts Universitaris i de Recerca. Fco. Javier Heredia Cervera. (Department of Statistics and Operations Research). 07/09/2020-06/09/2024. 33.960 €.
- 6 **Project.** RTI2018-097580-B-I00, Modelling and optimization of large-scale structured problems and applications. AGENCIA ESTATAL DE INVESTIGACION. Fco. Javier Heredia Cervera. (Department of Statistics and Operations Research). 01/01/2019-31/12/2022. 82.885 €.
- 7 **Project.** MTM2013-48462-C2-1-R, Forecasting and optimization of wind generation in energy markets - 1. MIN DE ECONOMIA Y COMPETITIVIDAD. Fco. Javier Heredia Cervera. (Department of Statistics and Operations Research). 01/01/2014-31/12/2017. 59.290 €.
- 8 **Contract.** OPTIMITZACIÓ DE RESERVES CABLE EN BOBINES (ORCB) TOP-CABLE, SA. Fco. Javier Heredia Cervera. (Department of Statistics and Operations Research). 01/06/2020-31/12/2020. 11.500 €.
- 9 **Contract.** Strategic analytical models in supply chain design through mathematical optimization ACCENTURE TECHNOLOGY LABS. Fco. Javier Heredia Cervera. (Department of Statistics and Operations Research). 16/11/2016-14/02/2020. 133.250,91 €.
